PROFESSIONAL SUMMARY

Pre-final year B.Tech (CSE – AI & ML) student at GL Bajaj Institute of Technology & Management with a CGPA of 8.40/10. Strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and DBMS. Hands-on builder of AI-driven applications using Python, Java, NLP, and REST APIs. Solved 300+ DSA problems on LeetCode; certified in Ethical Hacking (Cisco) and AI Fundamentals (Infosys Springboard). Seeking Software Engineering or AI/ML internships at product-based companies.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

AI / ML: Supervised Learning, NLP, Feature Engineering, Model Evaluation, Scikit-learn, NumPy, Pandas

Web & Backend: HTML, CSS, REST APIs

Tools: Git, GitHub, MySQL

PROJECTS

Personal Voice Assistant · Python · NLP · Speech Recognition · NumPy · Pandas

- Architected a real-time, deep learning-powered voice assistant for natural language command recognition and task execution via a responsive web interface, significantly reducing manual input overhead.
- Engineered a Speech-to-Text (STT) pipeline with advanced NLP preprocessing and tokenisation optimisation, improving command recognition accuracy across varied accents and environments.
- Designed an intelligent response generation and automation workflow engine; integrated REST APIs for live data retrieval (weather, news), demonstrating end-to-end backend connectivity.

Women Safety Area Prediction System · Python · Scikit-learn · ML Classification

Ongoing

- Built a supervised ML classification system to predict geographic risk levels using historical incident data and location-based feature engineering with Random Forest and Logistic Regression models.
- Executed an end-to-end data pipeline — EDA, feature selection, model training, hyperparameter tuning, and evaluation — achieving measurable improvement over baseline accuracy.
- Architected a REST API-ready output module for real-time area safety querying, enabling integration with downstream mobile or web applications.

EDUCATION

GL Bajaj Institute of Technology & Management · Greater Noida, U.P.

Oct 2023 – Aug 2027 (Expected)

B.Tech — CSE (Artificial Intelligence & Machine Learning) | CGPA: **8.40 / 10.00**

SRV Global Academy

2022 – 2023

Senior Secondary — Class XII (Science)

CERTIFICATIONS

Ethical Hacker Certification — Cisco Networking Academy

2024

AI Fundamentals Certification — Infosys Springboard

2024

ACHIEVEMENTS

- Solved 300+ DSA problems on LeetCode covering Arrays, Strings, Trees, Graphs, Dynamic Programming, and Recursion — consistently applying algorithmic thinking across time and space complexity constraints.
